Languages

The official languages of the World Organization are English and French. The World Scout Bureau will make all Conference Documents available in both languages. When possible, it endeavours to make them available also in Arabic, Russian and Spanish - the three additional working languages of WOSM. In the event of a conflict arising out of the interpretation of this Conference Document or any other official document of the World Organization, the English text shall prevail.

1. Agenda structure

The structure of the 42nd World Scout Conference agenda looks different from previous editions due to the virtual format. This is a great opportunity for more people to participate and engage in the Conference than ever before.

Live plenary sessions

There will be a daily period of four hours during which all delegates will come together for the business of the Conference to conduct voting and participate in key Conference moments. This four hour period will begin at 12:00 GMT each day. You [can follow this link](#) to see the time in your respective time zone and add it in your calendar. Engaging virtual conferencing tools will be used to ensure your input and ownership into the discussions and decisions.

Live programming and pre-recorded content

A variety of other live sessions and workshops will be offered to participants outside of the daily institutional period and will be repeated to ensure the programme is accessible to those attending around the world. These programme elements will be fundamental to learning about various Scouting initiatives, engaging with other National Scout Organizations, and sharing best practices. Select presentations, reports and sessions will also be pre-recorded for on-demand access. A full overview of the workshop session on offer will be released in July 2021.

In addition, participants can join social activities throughout the Conference to enjoy some fun moments with fellow Scouts. The virtual spaces for networking and coffee breaks will provide an informal means of connecting with other participants to have important discussions.

Customising personal agendas

Each participant will be able to build their own custom Conference agenda based on their needs and time zones to ensure the most meaningful experience. Remember that there are duplicated sessions outside of the four hour daily period.

We strongly recommend all delegations to develop an agenda beyond only the live plenary session and take part in the many workshops and pre-recorded content that will be on offer.
